“ My condolences to the family as I am just learning of your loss. I met him while working at SCI chester in the treatment program. Upon his release we kept in contact for a short while. He would have his ups and downs but i continued to encourage him to stay strong as he battled his demons. We lost contact but I continued to keep him in prayer. He was a great guy who wanted to make changes. He had a great sense of humor that made people laugh. He will be missed dearly.
